ABOUT US

AVRUPA KIMYA Brand brings together more than 10 years of industry history and experience with its consumers. With its experienced staff, it provides service within 48 hours to every point of Turkey with its regional directorates and warehouses, especially Istanbul headquarters and logistics warehouse. Our company that gives direction with industrial maintenance and chemicals, safe solvents, aerosol group, water treatment chemicals, ship chemicals, surface treatment chemicals and raw materials ;continues its services with its expert staff and working discipline.

It offers professional solutions with ISO Quality Management System certificates and TSE certificates in different brands and adopts a sustainable quality understanding in all units from production to customer service, from training to technical service.

Our company has adopted the principle of providing the best possible quality and service to our customers by taking into account the constantly renewed technology and product quality. Because our customers are our valued partners who ensure our continuity in the business world and meeting their needs is our primary goal. Our forward-looking idea is to continue with the ideal of "presenting a cleaner environment to future generations and we are all responsible for the future". We will continue to be a chemical solution partner.

PARSKIMAK
KIMYA • MAKİNE

MEGA STAR Concentrated Brushless Auto Wash Foam

Thanks to its special formula, it is a product that covers the entire vehicle surface with foam. It easily and effectively cleans bird droppings, fly residues, mud and similar stains without the need for brushes and sponges. Since the formulation of the product is polished, it provides a shiny appearance after drying.

Method of Use :

It is sprayed proportionally with the spray pump when the vehicle is dry. Then the outer surface is rinsed with pressurised water. It is used by diluting 1/60 with water.
